

In the Specification

Please amend the paragraph beginning at page 8, line 15 as follows.

(A)
In these exemplary embodiments according to the invention, the dimensions 454,554 for linear sources 405 and 505 may be approximately 1.5 mm to 3 mm and dimensions 452,552 may be approximately 2-5 cm. In other embodiments, the dimensions 452,552 may be less than 6 cm. One skilled in the art should understand that the dimensions provided are by way of example only and that other dimensions may also be used so as to maximize the hemodynamic benefits associated with resynchronization therapy.
